### **About Congresswoman Katie Porter**

Congresswoman Porter represents Orange County, California and is currently in her freshman term. She was first elected to Congress in 2018 when she flipped California's 45th Congressional District blue for the first time in its history.

During her time in office, Congresswoman Porter has asked tough questions of bank CEOs and administration officials to hold them accountable to the American people and has been a key supporter of legislation to reduce the influence of dark money in politics and restore ethics to Washington. As a single working mom, Rep. Porter knows firsthand about the challenges faced by working families. She's introduced bipartisan legislation to allow families to allow families to set aside more pre-tax income for dependent care.

Before coming to Congress, Porter spent nearly two decades taking on the special interests that dominate American politics and drown out the voices of working families. As California's independent watchdog against the banks, she made sure the big banks that had cheated Orange County homeowners followed through on their promise to help affected families get back on their feet. As a consumer finance expert, Congresswoman Porter also helped Congress pass the original Credit CARD Act in 2009, which enacted federal protections from abusive credit card fees
